

LINELIGHT

LINELIGHT

Bending the rules by reshaping lines

A new type of alignment extends the arch of architectural design. LINELIGHT creates an extravagant sense of space with light that leads seamlessly around every corner. Expressive arches of light skillfully master every curve – without dark spots. The luminaire can also be tilted by 30 degrees on both sides to fully exploit the design potential.

**Cross section**

60 mm x 27 mm

Length

160 mm | 310 mm | 610 mm

910 mm | 1810 mm

Accessories

Reflector for glare protection

* configure online via
myLinelight

The lines are as individual as the lighting design: LINELIGHT fulfils both enhancing and functional lighting tasks. Whether concealed as an arch or visible with additional glare protection, the light modules shine in every sense with easy handling and uniform light output – even around corners. High levels of power and colour reproduction are also part of the package, while another benefit is quick and easy installation. The luminaires are simply plugged together and lengths of up to 18 metres can be operated using a single control unit.

The handy online configurator supports simple planning and fully demonstrates the excellent versatility of the LINELIGHT range.
