Glossy Cream and Hazelnut Vertigo Textile Cable - The Original Creative-Cables - ERM53 round 2x0.75mm / 3x0.75mm

N° of cores:: 3x0.75

Description

The original Creative-Cables.

Some call them colourful textile cables, others fabric covered cables, whilst others still simply call them coloured cables. But really, for over 10 years their real name has been Creative-Cables.

The cream and nut, thin stripes fabric Vertigo braided lighting cable sounds delicious, but the true value comes from its striking and detailed hypnotic design. The unique collection is masterfully designed in Italy with inspiration from the Hitchcock's psychological thriller of the same name.

This high-quality and hardwearing fabric provides a unique, bold HD effect, appearing to be hand painted. With a mixture of coloured and transparent threads that provides a neutral, yet bold final texture, it is both simple and memorable. This unique round cable will appeal to any creative and bold designers out there who are looking to add something different to your usual lighting options.

As with all our wiring at Creative-Cables, these cables are versatile, flexible and strong. All of our cables adhere to all United Kingdom and European standards.
