Description

The original Creative-Cables.

Some call them colourful textile cables, others fabric covered cables, whilst others still simply call them coloured cables. But really, for over 10 years their real name has been Creative-Cables.

This beguiling and natural braided lighting cable with straw cotton and linen fabric comes from our brand new Vertigo collection. This hypnotic and unique collection took inspiration from the mesmerising posters from the classic film of the same name.

The cables are ideal for passionate creatives, artists and those looking to make a bold statement with their interior design choices. This natural flex helps you to create truly unique and exciting table lamps, suspended lights, pendants and wall lighting features.

The Vertigo collection retains all of the features of our cables that have made us famous worldwide. Meaning they are flexible and strong - allowing you to make versatile bold choices with your designs. All our cables conform to UK and EU standards.
